Project Objectives

- Analyze website performance
- Evaluate user experience
- Study existing marketing strategy
- Provide recommendations
- Build website or leading page

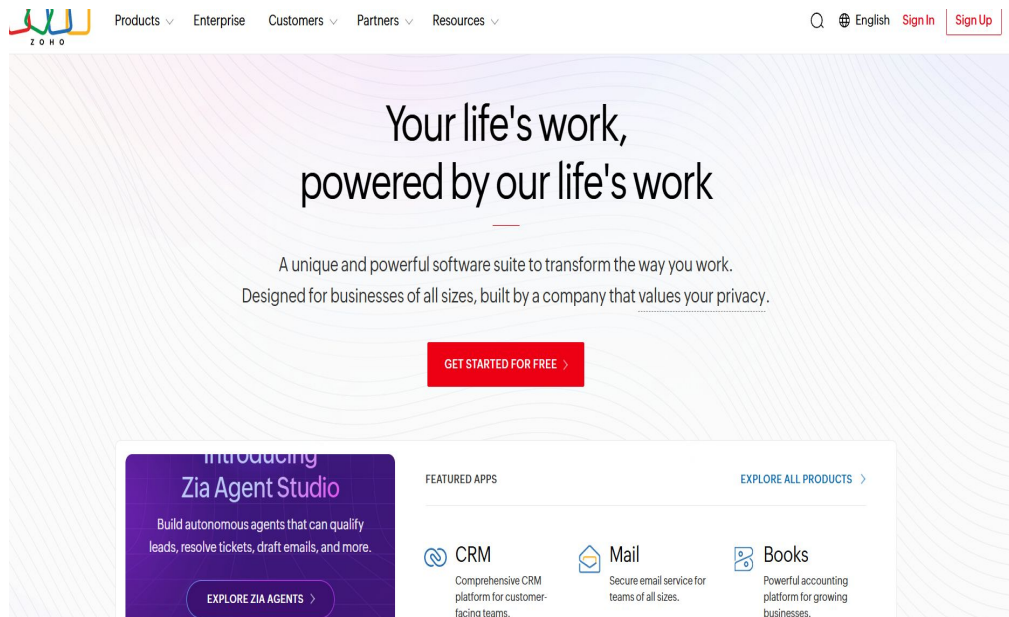

Company Overview

Zoho is an Indian multinational technology company that provides cloud-based software solutions for businesses. Founded in 1996, Zoho offers a wide range of applications including customer relationship management (CRM), finance, human resources, and collaboration tools. The company focuses on delivering affordable, scalable, and user-friendly solutions that help businesses streamline operations and improve productivity. Zoho is known for its strong digital presence, customer-centric approach, and continuous innovation in the SaaS industry.

First Impression

- Clean and structured design
- Visually appealing
- Fast loading
- Easy navigation

ZOHO WEBSITE AUDIT AND ANALYSIS

Design & UX

- Clean and visually appealing design
- Well-structured layout
- Easy-to-use interface

- Optimize mobile responsiveness and CTA visibility

Marketing Strategy of Zoho (Traditional and Digital)

Traditional Marketing of Zoho

- Business conferences
- Corporate networking events
- Brand partnerships
- Offline business promotions

Strengths

- Builds business trust and credibility
- Helps in corporate networking
- Strong offline brand presence through events and conferences

Weaknesses

- Expensive compared to digital marketing
- Limited audience reach
- Difficult to track customer engagement accurately

Recommendations

- Participate in more industry exhibitions and startup events
- Improve offline brand partnerships
- Combine offline campaigns with QR-based digital promotions

Digital Marketing of Zoho

- SEO marketing
- Content marketing/blogs
- YouTube demos
- Social media marketing
- Email marketing
- CRM personalization
- Landing pages

Strengths

- Strong SEO visibility
- Effective content marketing and blogs
- Personalized CRM communication
- Better lead generation through landing pages and email marketing

Weaknesses

- High competition in SaaS industry
- Requires continuous content updates
- Some mobile responsiveness issues

Recommendations

- Improve mobile optimization
- Increase engagement through social media campaigns
- Add more interactive and AI-driven personalization
- Optimize CTA placement for better conversions
